

Email

Cum adaug filtre pentru email pe Rainloop?

In aplicatia **Rainloop** apasati in dreapta sus pe "**omulet**" si apoi pe **Settings**

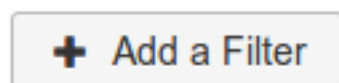

apoi in stanga pe **Filters**

- adaugati un filtru "**Add a Filter**"

Filters

Email

- adaugati un nume pentru a recunoaste regula
- la **Condition** alegeti conditia pe care trebuie sa o indeplineasca mesajul primit
- la **Actions** alegeti ce doriti sa se intample cu acel mesaj (sa fie respins sa fie mutat in alt director, etc.)
- apasati pe **Done**
- Nu uitati sa Salvati filtrul, apasand pe **Save**
