

Email

Cum adaug semnatura automata la trimiterea de mail in Rainloop?

In aplicatia **Rainloop** apasati in dreapta sus pe "**omulet**" si apoi pe **Settings**

- la meniul **General** apasati pe adresa de mail la **Identity**

- o sa se deschida un ecran ca si cel de mai jos:

Email

Update Identity?

Email **adresa@domeniultau.tld**

Name

[Reply-To](#) [Bcc](#)

☐ Insert this signature before quoted text in replies

 Font - Size - **B** *I* U ~~Strikethrough~~ **A** - **A** -           

 Update

- la **Name** treceti **numele** dorit sa apara cand trimiteti Email
- bifati "**Insert this signature before quoted text in replies**"
- introduceti in chenarul de jos textul dorit sa apara ca si semnatura
- apasati pe **Update**
