Email

Cum mut automat un mail in SPAM in functie de Flag in aplicatia Roundcube?

Dupa logare accesati in partea dreapta **Settings**

- apoi in stanjga jos apasati pe **Filters**

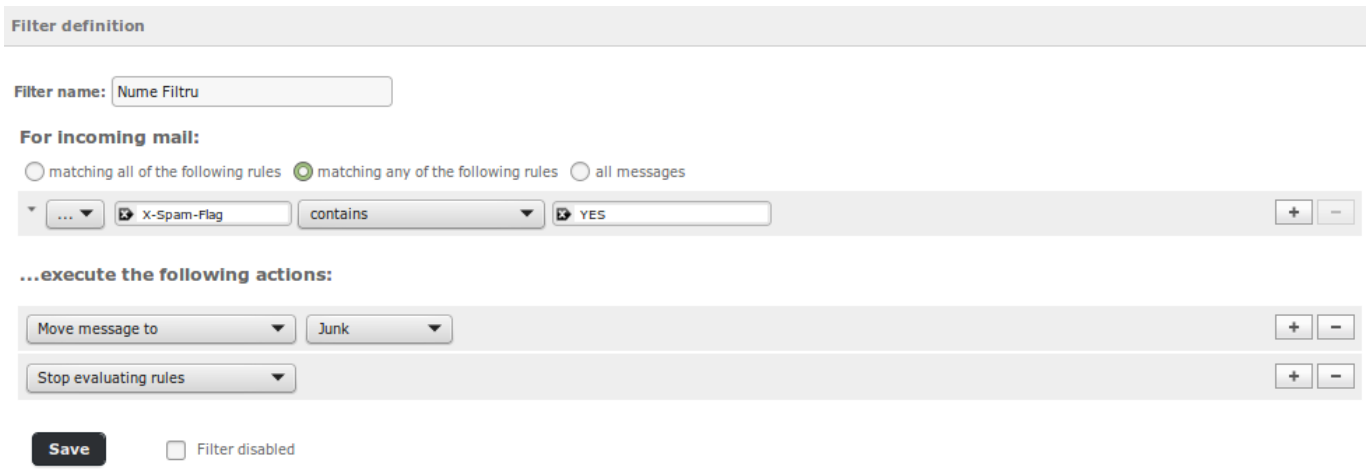

- apasati semnul plus **+** din partea de jos a paginii

- setati un nume pentru filtru

- alegeti in loc de **Subiect** din dropdown **... (3 puncte)** apoi in prima casuta de text adaugati **X-Spam-Flag**, lasati meniul **Contains** si in casuta urmatoare introduceti: **: YES**

Email

- la actiune alegeti sa puna mesajul in **Junk**

- mai adaugati o linie de actiune si din dropdown selectati **Stop evaluating rules**

- apasati **Save**

- in meniul **Filters** mutati cu mouse-ul regula sa fie prima de sus (tineti click stanga apasat pe regula si mutati)
