## Security Notice

Dear member,

Our security system has detected some irregular activity connected to your account.

As a precautionary measure **we will restricted access to your account within 72 hours if you did not validate your account** . To prevent further irregular activity, you will be unable to send out any emails until this issue has been resolved

To fix security info, click below to validate..

[Click here to validate now](#)

If you haven't already done so, we ask that you validate the next time you go to log in. If you usually access your emails via an email or a third-party program, please log in to your account via the homepage. You will then click above validate now to automatically directed to validate your email.

To ensure your account is protected at all times, we ask you to complete the following steps:

- Check that all your computers and mobile devices used to access your account have an up-to-date virus scanner to detect any possible malware.
- Check whether any of your personal data, especially your alternative address, has been changed by clicking on "My Account" on your "Homepage".
- Go to your "Email settings" then click on "Filter Rules" to check whether any forwarding rules have been created. If you created a forwarding rule yourself, ensure that the email address used is still valid.

You can find further information about updating your account security here: [Help Section](#)

Thank you for your cooperation.

Your Team
