Cum adaug inregistrari TXT pentru validare la Google Search si Gmail prin cPanel?

Pentru a adauga inregistrarea TXT de la Google prin care se solicita validarea detinatorul domeniului urmati pasii de mai jos:

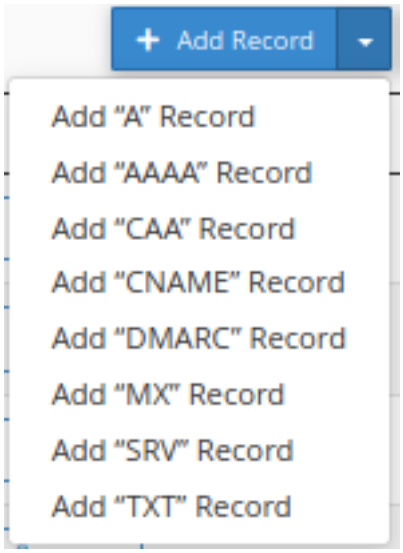

- dupa logarea in cPanel accesati meniul DNS Zone Editor

- apasati pe Manage in dreptul domeniului la care doriti sa adaugati inregistrarile **DNS**

- apasati in partea de sus pe iconita din dreptul **Add Record** in dreapta sus

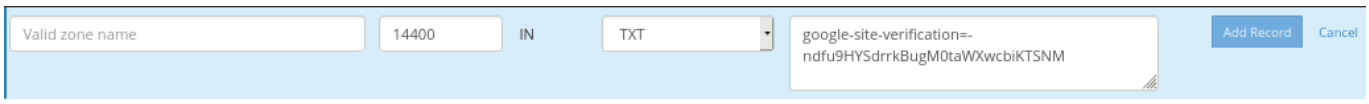

- apasati pe **Add "TXT" Record**

- la campul **Name** puneti numele domeniului dvs. **fara WWW**

- la campul **Record** adaugati codul primit de la Google, e de forma: **google-site-verification=-ndfu9HYS5YpqooXM0taWXwcbiKTSNM**

- apasati pe Add Record
